No School Fees were charged during the 2025-2026 school year.

Due to the continued support and generosity of corporate and community partners and donors we are able to provide our students with access to education without barriers.

In the past year donor dollars have covered the costs for:

1) Transportation required for field trips and student attendance for on site activities
2) Course supplies for all courses, including complimentary courses
3) Parenting / prenatal supplies
4) Cost of speakers and presenters for on site activities
